

# Company Profile & Background

[www.kmaaligroup.com](http://www.kmaaligroup.com)

# Overview

- Limited Liability Company registered in Nairobi, Kenya – Kmaali Consulting Ltd.
- **Kmaali Consulting Group (KCG)** is a Bespoke Consulting & Advisory firm - originating deals, analysing & assessing investment opportunities in various sectors – Green Hydrogen, Renewable Power (Geothermal, Wind, Solar, Hydro, Biogas, Waste-to-Energy), Manufacturing and Carbon Removal technologies
- KCG combines technical expertise, strategic insight, and a passion for sustainability to deliver innovative energy solutions that drive progress and create value for our clients and partners
- KCG Collaborates with a wide range of stakeholders, including government agencies, private sector companies, and international organizations, to drive forward sustainable energy projects and initiatives

# Mission and Vision

## Mission

To advance sustainable energy solutions through innovative project development, strategic partnerships, and expert consultancy, fostering a greener and more sustainable future

## Vision

To be a leader in renewable energy consultancy, pioneering sustainable solutions and driving the transition to a low-carbon economy

# Values

- **Demonstrating Integrity** - We are consistent and transparent in our decisions and actions
- **Building & Growing Partnerships** - we work in partnerships to achieve our goals. We believe strong partnerships and building of long lasting partnerships with our clients is the key to our success
- **Striving for Excellence** - We aim to deliver the highest quality performance in all we do
- **Creating Value** – We strive to create value for our clients by providing valuable energy solutions. Creating real, long-term economic value
- **Principled Entrepreneurship** - We aim to demonstrate the sense of urgency, discipline, accountability, judgement, initiative, economic and critical thinking skills, and the risk-taking mentality necessary to generate the greatest contribution to the company and society
- **Knowledge** - We seek and use the best knowledge and proactively share our knowledge while embracing a challenge process
- **Change** - We embrace change by envisioning what could be, challenge the status quo, and drive creative destruction
- **Sustainability** – We seek to create long-term value for our clients by using resources efficiently to provide innovate and affordable energy solutions to our clients and customers, all being done in a manner that is environmentally and socially responsible and economically sound

# Core Services

- **Geothermal Energy Development**
- **Renewable Energy Solutions**
- **Project Management & Finance**
- **Sustainability & Energy Efficiency**
- **Business Development & Strategy**

# Key Project Experiences

- **35 MW Geothermal Power Plant - Sosian Energy**

- Successfully developed and managed the 35 MW geothermal power plant project in collaboration with Sosian Energy, demonstrating our capability to handle large-scale renewable energy projects. This project exemplifies our expertise in geothermal resource assessment, drilling, and power plant design

- **Akiira Geothermal Green-Field Exploration Project**

- Managed geothermal exploration drilling and power plant investments for Centum Investments, overseeing the Akiira Geothermal green-field exploration project. This role highlighted our capability in portfolio management and geothermal project development.

- **Commercial & Industrial Solar Development**

- **Central Electricals International Ltd.:** Spearheaded business development and technical support for the C&I Solar PV market
- **Premier Solar Solutions:** Directed business development from 0 MW to 5 MW, successfully securing \$2.5 million in deals
- **Powerhive:** Engaged in extending electricity grids to rural communities – enhancing adoption and development of solar mini-grid in western parts of Kenya

- **Green Hydrogen/Green Ammonia Development**

- Led initiatives in green hydrogen production, contributing to the development of sustainable energy systems

- **Climate Venture in Kenya**

- Leveraged resources of the Great Rift Valley for global decarbonization efforts, focusing on carbon dioxide removal and green ammonia projects

# Leadership

- **Lemayian C. Kimojino, *Founder & CEO***

- **Background:** Over 18 years of experience in chemical engineering, renewable energy, project management, project finance/private equity and business development
- **Expertise:** Geothermal energy, green hydrogen, process engineering, and executive leadership
- **Education:** Chemical Engineering Degree (*Michigan Technological University*), Executive MBA (*IESE Business School*)
